Job Description

We are currently seeking an experienced **Landscape Architect II or III** to join our **Virginia Beach, VA** office.

Our award-winning landscape architecture and land planning studio offers an extensive range of consulting and design support to urban, commercial, parks and recreation, economic development, environmental, transportation, residential and government clients across multiple markets. Applicants should be creative, open-minded, collaborative and motivated and possess strong design, graphic, and written communication skills.

Essential Duties and Responsibilities of a successful candidate include but are not limited to:

- Work with both public and private sectors on a diverse range of project types
- Assist project teams with developing landscape plans through schematic design, design development, construction documents, and specifications
- Assist in preparation of cost estimates and construction takeoffs
- Prepare detailed master planning documents and illustrative design plans
- Work collaboratively within landscape architecture and multi-disciplinary design teams
- Set professional goals and work to achieve them annually

Qualifications

Skills/Requirements of a successful candidate include but are not limited to:

- Bachelor or Masters’ Degree in Landscape Architecture from an accredited program is preferred but a non-accredited degree in Landscape Architecture and 2-5 years of experience may be considered
- Ideal candidates will have at least two years of professional experience in landscape architecture
- Must possess strong hand graphic skills and computer graphic design foundation
- Advanced level of competency utilizing AutoCAD (Civil 3-D), SketchUp or Rhino, Adobe Creative Cloud, (Photoshop, Illustrator, and InDesign). Experience with GIS and Land F/X is a bonus
- Proficiency in writing reports, technical documents, and general correspondence
- Ability to communicate with internal and external clients and colleagues to perform expected duties
- Ability to solve challenging design and technical problems

- Must be creative, open-minded, and organized
