

Landscape Designer, Experience 0 – 3 years

Landscape Designer, Experience 3 – 5 years

LSG Landscape Architecture, Inc., a design firm with an extensive presence in the Washington, DC metropolitan area, is seeking an entry and mid-level designer to join our team. Our award-winning practice is Eastern Seaboard-focused and globally experienced, including many projects across India and China. Our expertise includes master planning, site design, and landscape architecture.

We believe in placemaking that is smart, sustainable, creative and transformational. Our design approach strives to generate an engaging, enlivened sense of place. Whether drawing from urban, pastoral, or historical inspirations, the result should be informed and elevated by something larger.

LSG seeks design professionals with one to four years' experience in the field of landscape architecture. We are looking for talented and highly motivated individuals who work well with teams of various sizes and enjoy being collaboratively creative. The successful candidates will present strengths in design graphics, organization, communications, and an understanding of the design process from concept to construction documentation. A demonstrated capacity to handle a range of responsibilities and tasks is desired.

Qualifications/Skills:

- BS or MA/MLA in Landscape Architecture
- Work experience in a landscape architectural firm.
- Outstanding digital plan, section, and perspective graphic abilities.
- Demonstration of design ideas and sensibility.
- A track record of preparing quality presentation materials.
- Excellent communication and organizational skills.
- Understanding and experience in grading and drainage.
- Proficiency in AutoCAD, land F/X, SketchUp, Adobe Photoshop, Adobe Illustrator, and Adobe InDesign.
- Detail-oriented, enthusiastic, and comfortable with a diverse range of projects.
- Demonstrated success with collaborative teams and time management.

Preferred Qualifications:

- Enthusiasm for innovation in material use and detailing.
- Proficiency with Autodesk REVIT.
- Experience with construction documentation and construction administration.
- Practical plant material knowledge.

Position and Benefits:

- A permanent, full-time position with expectations for growth within the firm.
- Potential for increased responsibilities and leadership development.
- Competitive salary, commensurate with experience.
- Health benefits, 401K investment plan.
